|---------------------|-------------------------------------------------------------------------|
| <b>PRODUCT NAME</b> | <b>SİLOCHEM-GİS</b><br>(Liquid Mono Silicium Oxide Solution Fertilizer) |
|---------------------|-------------------------------------------------------------------------|

### GUARANTEED CONTENT

|                              |              |
|------------------------------|--------------|
| <b>Macro – Meso Elements</b> | <b>% w/w</b> |
| Silicium Dioxide             | 17           |
|                              |              |

### Physical Characteristics

|                                     |                  |
|-------------------------------------|------------------|
| Appearance                          | Liquid           |
| Odor                                | Odorless         |
| Color                               | Dark Brown       |
| Density                             | 1,3              |
| pH in water (1% conc.) <sup>2</sup> | 11-13            |
| Solubility-Stability                | Soluble in water |
| Phytotoxicity                       | Non-phytotoxic   |

|                        |                                                            |
|------------------------|------------------------------------------------------------|
