OCTACOP

Copper Octanoate

Proven performance in a low-load copper fungicide with fatty acid soap for powerful disease control to stay strong with less residue and less copper.

STAY GREEN WITH OCTACOP

Introducing **OCTACOP** with its new generation developed and stronger copper formula.

OCTACOP is much easier to dissolve and use with its liquid fluid formulation technology and higher useful copper ion content.

It provides a good coating and is safer for your medication and tools thanks to its ideal crystal size and small particle that can actively and consistently adhere to the surface.

Thanks to its liquid formulation, it mixes homogenously in the tank effortlessly.

Even after long periods of storage, there are no problems with mixing.
