# SIRICE SEA

## Ascophyllum nodosum:

**Plant Growth Promotion:** Extracts of Ascophyllum nodosum can promote plant growth due to the phytohormones and growth-regulating compounds they contain. These extracts support faster and healthier plant development.

**Stress Reduction:** Ascophyllum nodosum helps plants become more tolerant to stress factors. It can enhance plant resistance particularly against environmental stresses such as drought and salinity.

**Enhanced Nutrient Uptake:** Ascophyllum nodosum extracts can improve the plant's ability to absorb nutrients more efficiently, resulting in better growth and overall development.

## Plant Growth Promotion:

**Enhanced Nutrient Uptake:** Extracts of Ecklonia maxima promote more effective nutrient absorption, supporting healthier and more productive plant growth.

**Stress Reduction:** Ecklonia maxima helps plants become more tolerant to various stress factors. It contributes to better adaptation against drought, salinity, and other environmental stresses.

**Enhanced Nutrient Uptake:** Extracts of Ecklonia maxima can enhance the plant's ability to absorb nutrients more efficiently, which supports healthier and more productive plant growth.

DOSAGE AND ADMINISTRATION	
	LEAF (with 100 litres of water)
Plant	
Vineyard	100-125 ml / 100 L Water
Kivi	100-125 ml / 100 L Water
